

Parent Testimonials

"This has been the best experience for my daughter and our family. It is the positive environment and the encouragement that Mrs. Kara gives these kids that is priceless."

Liz Parsons
2005-2009

"I have my 5 year old daughter at New Discoveries Preschool and she loves it! The small groups with a lot of individual attention appeal to me as a mom. She has learned so much the last two years from Mrs. Kara and it was a very safe and loving environment for my child."

Brenda Richards
2005-2007

"Mrs. Kara has done an amazing job with the creative curriculum. She takes the time to find each child's strengths and really builds upon those."

Maria Martinez
2005-2009

"My daughter always says, 'I love Mrs. Kara'. If you can have love and learning all in one, who could ask for anything else."

Angelic Carrera
2006-2008

New Discoveries Preschool

2009-2010

Getting a Head Start on Learning

Preschool is a wonderful time of a child's life, full of many "firsts" and new discoveries. I know that you want to feel confident that your child is receiving the school readiness skills and overall social, emotional and physical growth they need. I believe that each child has unique gifts, talents and interests and deserves one-on-one attention. It is important for children to feel loved, cared for, challenged and confident in who they are, even at a young age.

New Discoveries is a fantastic place and I am ready to give your preschooler a great start!

Kara Harper - Director & Teacher

New Discoveries

At New Discoveries, your preschooler will be learning in a hands-on, Christian environment where they can use their creative abilities and prepare their mental skills. I strive to teach the children communication, manners, responsibility, respect and Godly principles. I encourage the natural curiosity of three to five year olds through individual and group activities and a variety of learning centers.

Arts & Crafts

While using art and craft supplies, your child will have a blast making many masterpieces with things you can mix, mold, twist, cut, stir, color and glue.

Dramatic Play

Dressing up and becoming a Fireman, Cook, Princess, or Super Hero will exercise your child's imagination and reasoning skills through creative play.

Reading & Leap Pad

Your child will learn the love of reading by exploring a large variety of books and using the interactive Leap Pads.

Manipulatives

Your child will explore, experiment, and discover solutions by manipulating an array of projects and materials.

Computer Activities

At the computer, your child will learn to use a mouse, follow instructions and play interactive learning games.

Field Trips

Field trips are so much fun and enhance the learning experience. They will help your child experience topics and themes we discuss in class.

Registration Information

Class Schedule

Preschool (3-4 year olds)

Wednesday & Friday 8:30-11:00 am

Pre-Kindergarten (4-5 year olds)

Tuesday & Thursday 8:30-11:00 am
